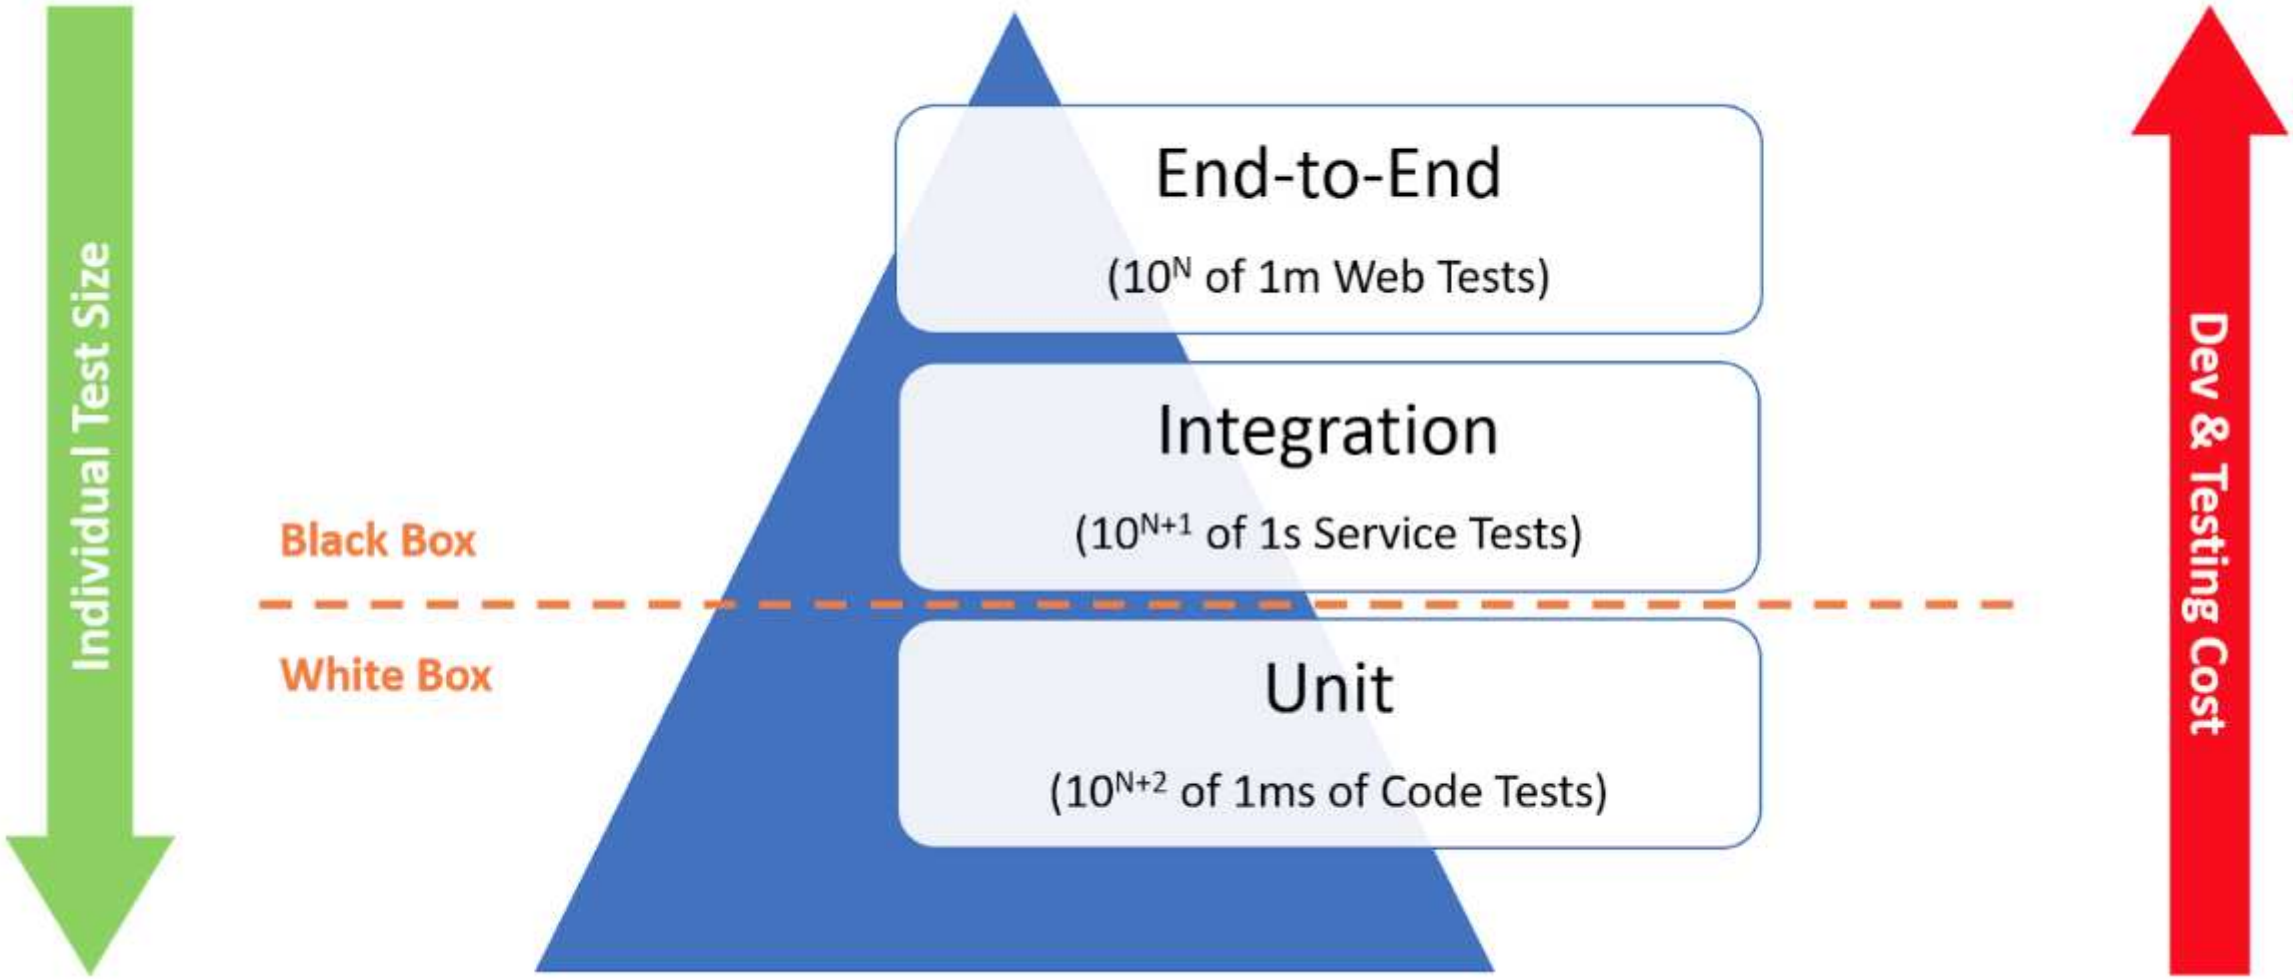
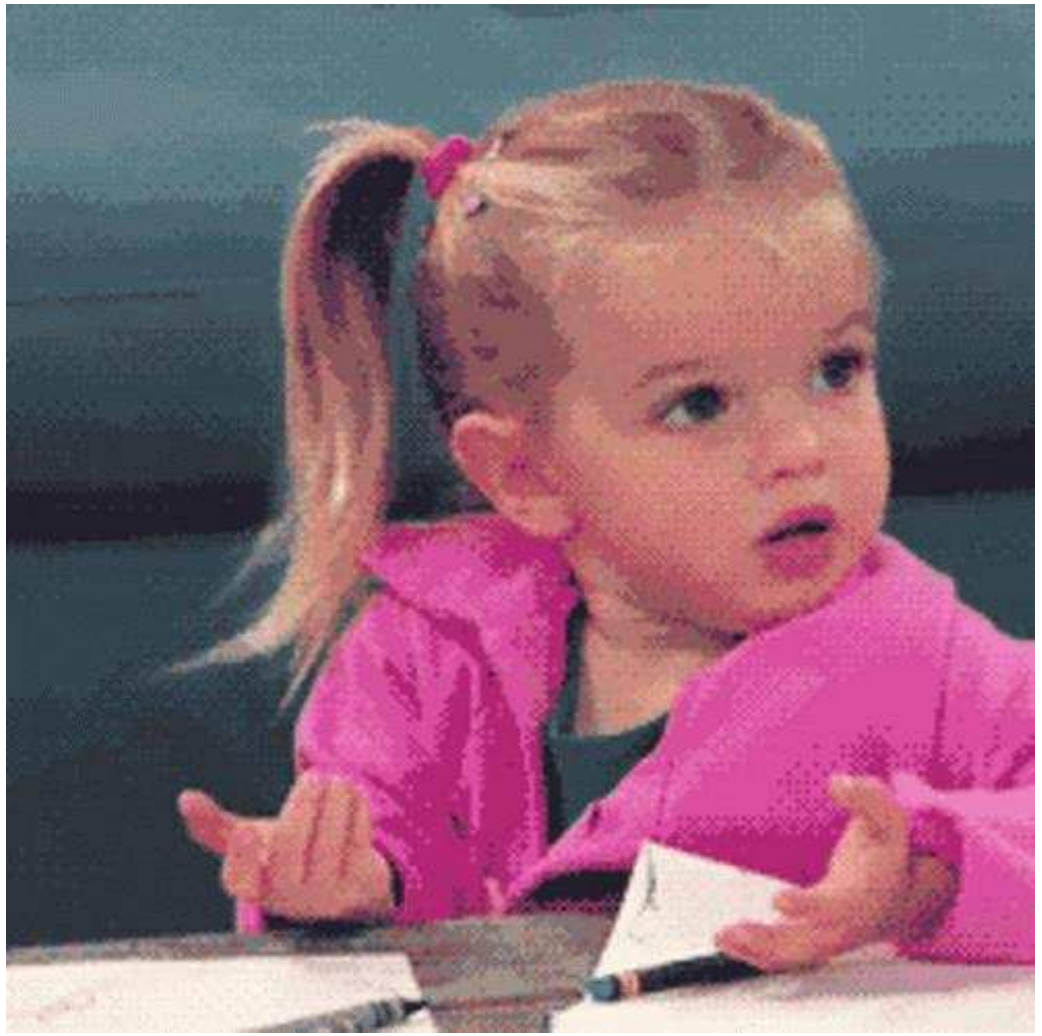
Testing Behavior

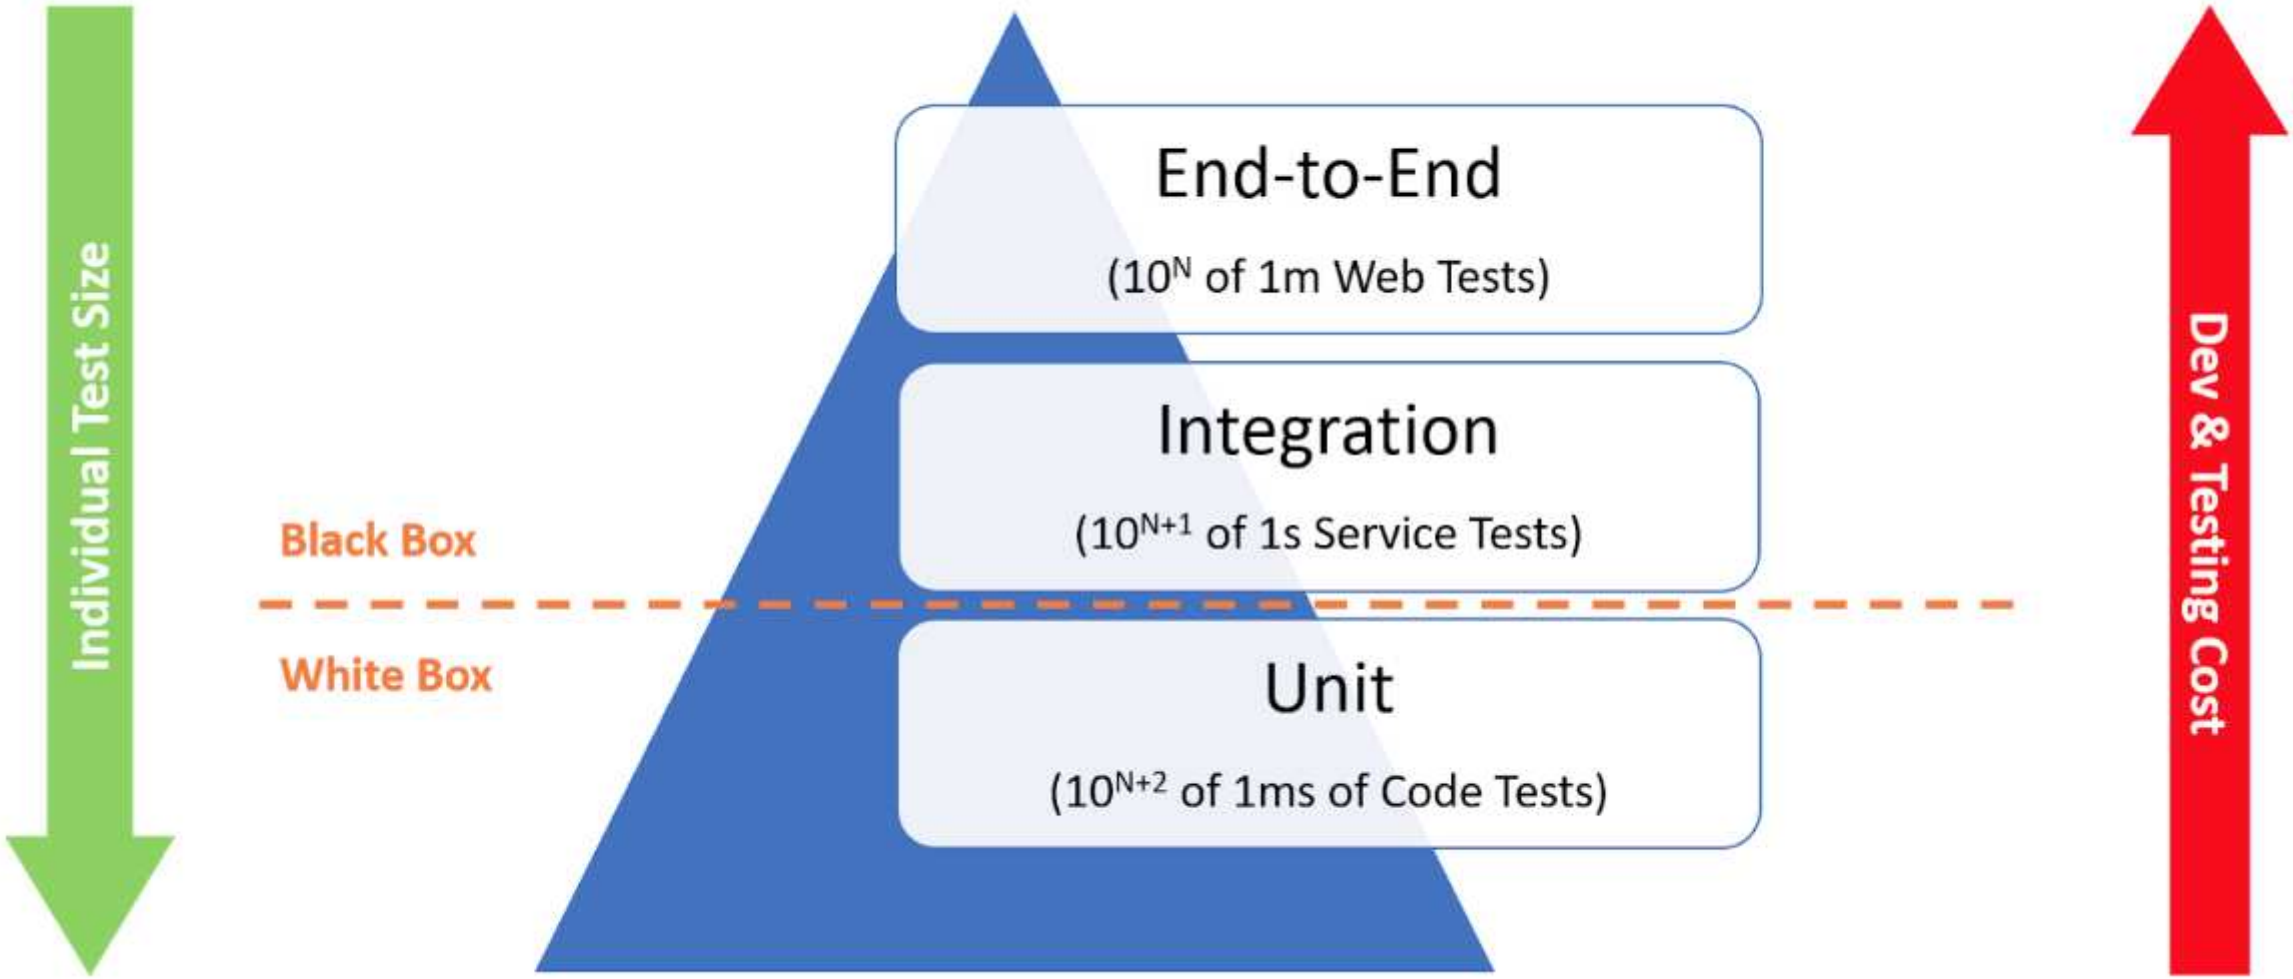


https://automationpanda.com/2018/08/01/the-testing-pyramid/

- **Black Box Testing**

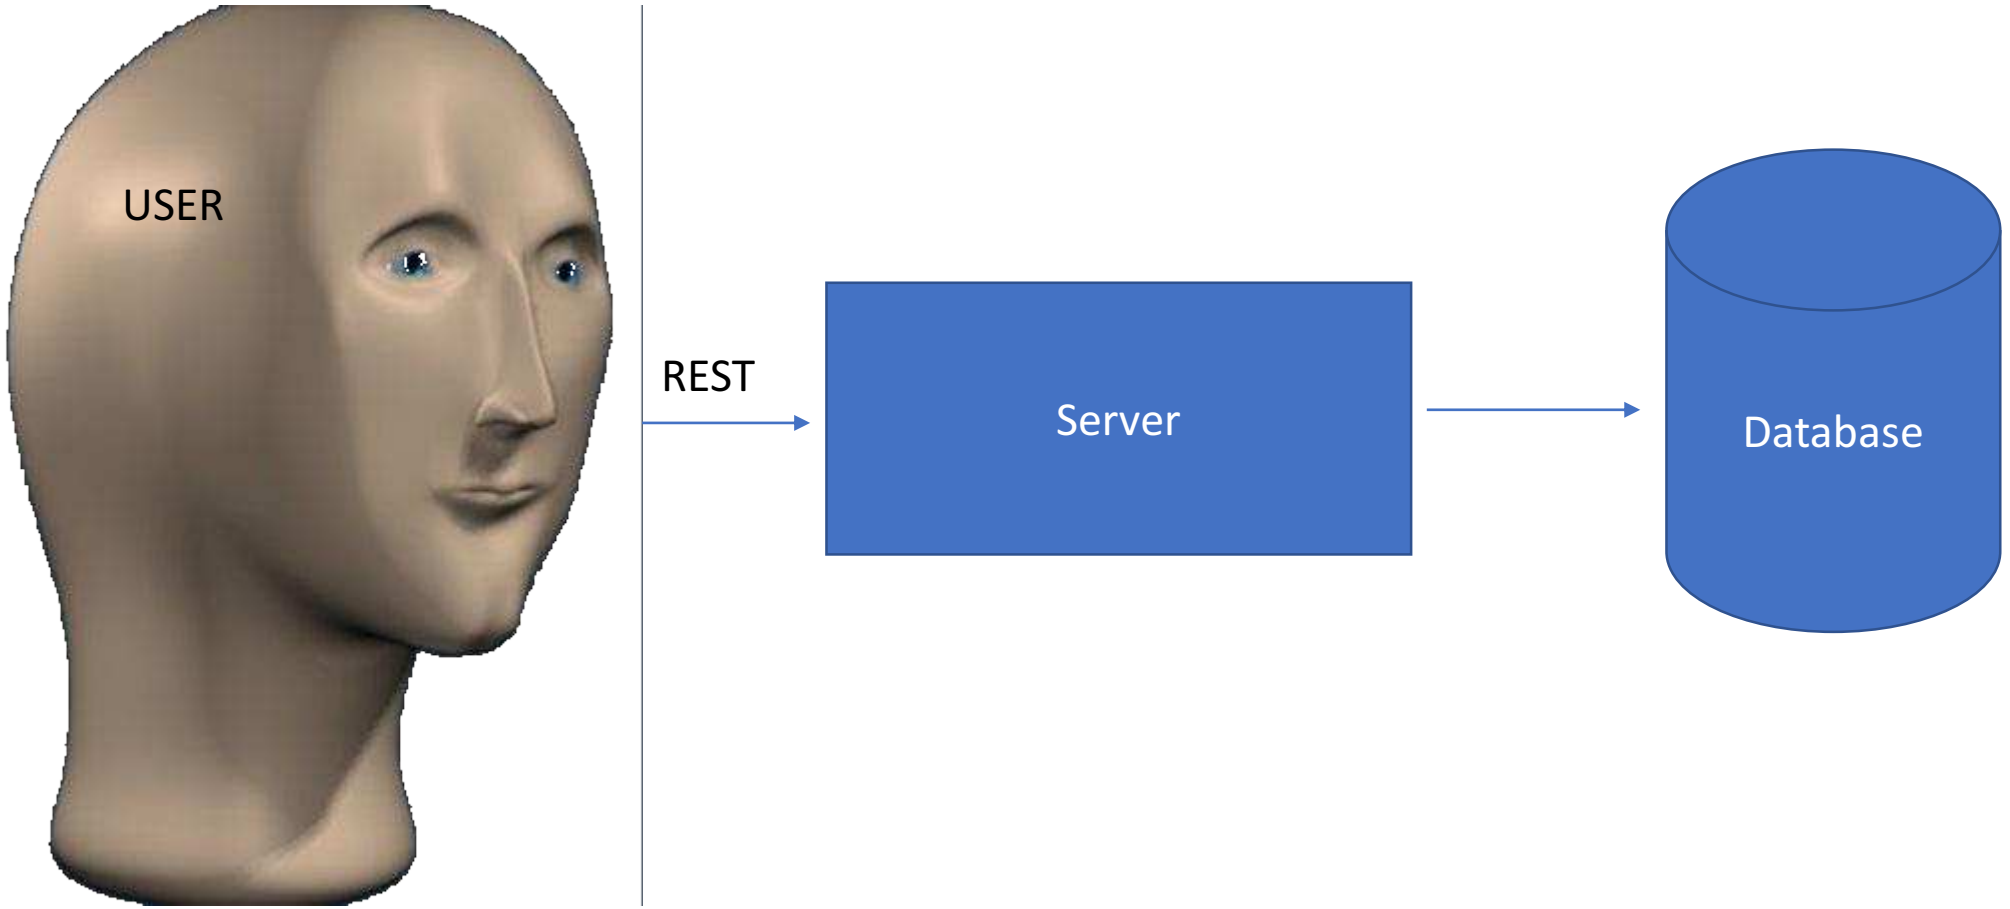
is a software testing method in which the internal structure/ design/ implementation of the item being tested is not known to the tester





https://automationpanda.com/2018/08/01/the-testing-pyramid/

Integration tests good
performance bad



USER
REST
Server
Database

Problem?

- Slow
- Debugging
- Testing too much at once

Solve

- Fast compile/startup languages (golang /node)
- Forced to test client interface
- No implementation details in tests
- Easy to test full stories
- Simple

Thank You
