Peter Koch  @petikoch · 21. Feb.

If we understand this, we understand everything:

It's ALL about the feedback loop. And it's all about how QUICK we get feedback for our ideas, plans and actions.

What is a feedback loop?

Peti's definition in the context of Software Engineering

A blurred background image showing a group of people in a meeting or collaborative work environment. The text is overlaid on this image.

Individuals and interactions over processes and tools
Working software over comprehensive documentation
Customer collaboration over contract negotiation
Responding to change over following a plan
