

# Code Smells

---

# Large Class

---

- Everything as a service
- Just add it inn here, and I'll refactor "later"

# Inappropriate Intimacy

---

- Document Data Structures
- Shared work between frontend and backend

# Middle Man

---

- Afraid of changing more code than necessary
- We might need it later

# Shotgun Surgery

---

- Build systems
- CI and Deployment process

# Thank you

---
