

TEST DRIVEN DEVELOPMENT

Sverre Lofthus

TDD PROCESS

- Behaviour
- Fail for the right reason
- Write just enough code
- Frequent commits!
- Mutually independent

BENEFITS OF TDD

- Code quality
- Courage
- Accelerated Debugging
- Documentation as code

MOB PROGRAMMING

- Roles: Driver, navigator and mob
- Team collaboration
- Reduced Silos
- Learning from each other

Mob Programming A Whole Team Approach

MY EXPERIENCE AND THOUGHTS

5

- Stressful and tiring
- Easier to divide issues in to smaller issues
- Trust the mob

THANK YOU!
